Sample audit: what goes out, and when

One kind of trip, mapped from deposit to after they're home. Made-up 7-night cruise.

This is what you get with the $295 audit. We look at one of your recent trips on a call. Then you get this map, the dates list, and a plan. This sample uses a made-up 7-night Mediterranean cruise.

3. What to fix first

1. **Money at risk.** The cruise line claim is missing. Add a task 3 days after every deposit.
2. **Client experience.** No traveler form, so dietary and mobility notes can get lost. Send the form with the welcome email.
3. **Easy wins.** The welcome email and payment reminder are typed by hand each time. Turn them into templates.
4. **After the trip.** Nothing goes out. Add a welcome-home email and a referral ask.
